

Zoe Dang

(267) 366 - 2232 | zkd26@drexel.edu

EDUCATION

Drexel University | Philadelphia, PA

Anticipated Graduation June 2028

Bachelor of Science and Master of Science in Biomedical Engineering (Accelerated)

GPA: 3.95

Drexel University Dean's List

Relevant Courses: Introduction to BMES Design II: Evaluating Design, Differential Equations

EXPERIENCE

Bioluminescent *E. coli* Project

Philadelphia, PA

Researcher

April 2025

- Induced bioluminescence in *E. coli* through shotgun cloning
- Conducted gel electrophoresis to validate successful chromosomal DNA digestion and plasmid ligation
- Documented experimental procedures and compiled a comprehensive lab report that articulated key findings and analysis

Hillock Anodizing Inc.

Philadelphia, PA

Chemical Process Engineer

September 2024 - March 2025

- Conducted titrations to determine chemical concentration levels and ensure compliance with operational standards
- Collected and evaluated chemical samples, measuring pH levels, dye concentrations, and acid levels
- Performed chemical solution analyses and executed adjustments to maintain optimal parameters

Laser Letterboard Communication System

Philadelphia, PA

Designer

January 2024 - March 2024

- Engineered a laser-activated letterboard communication system to promote communication for individuals with ALS using an arduino microcontroller to deliver clear audio and visual outputs
- Optimized system for reliability and ease of use by validating constraints and requirements so that audio and sound output are decipherable from up to 12 feet away

TECHNICAL SKILLS

Software:

Microsoft Office, Google Suite

Programming Languages:

Python, Matlab

LAB SKILLS

Preparing Solutions and Reagents, Titration, Spectrophotometer, Gel Electrophoresis, Centrifuge, Cell Culture, Micrometer, Familiar with Basic Laboratory Equipment
